  - Percentage: 84.60%

PROJECTS

Project: Xeroguard
  - Hyperlocal Printing Ecosystem: Connects customers with print shops for seamless document submission and payments.
  - Offline P2P Transfer: Engineered a WiFi/Bluetooth-based transfer system (via QR code) to send files without internet.
  - Privacy-First Design: Implemented an "auto-delete" feature where files and chats are removed immediately after printing.

Project: Notebook
  - CRUD Functionality: Implemented features to Create, Read, Update, and Delete notes efficiently.
  - UI/UX Design: Designed a clean, intuitive interface for organizing personal tasks and data.
  - Cloud-Synced Database: Integrated Firebase Firestore for real-time data storage and synchronization across devices.
  - Secure Authentication: Implemented Firebase Authentication to handle secure user login and sign-up functionality.
